

Maximizing Profits with Bookz Pro; Comprehensive Reimbursement Services

Unlock Your Hidden Amazon
Earnings Today!

OUR STORY

- **Introduction:** Everything started with a simple idea - selling our college books. We were students with a vision.
- **Funding:** We raised series of funding from reputable investors who believed in our potential.
- **Evolution:** From those humble beginnings, we founded our software company, dedicated to crafting top-notch solutions for Amazon sellers.
- **Innovation:** Our journey led to innovation, and we've proudly sold millions of items, making a difference for thousands of Amazon sellers.

PROBLEM

Amazon may owe you 1% to 3% of your annual revenues in FBA reimbursements, which could mean thousands of dollars waiting to be reclaimed.

01.

Hidden Profit Loss: Many Amazon sellers are unaware of profit losses due to unclaimed reimbursements.

02.

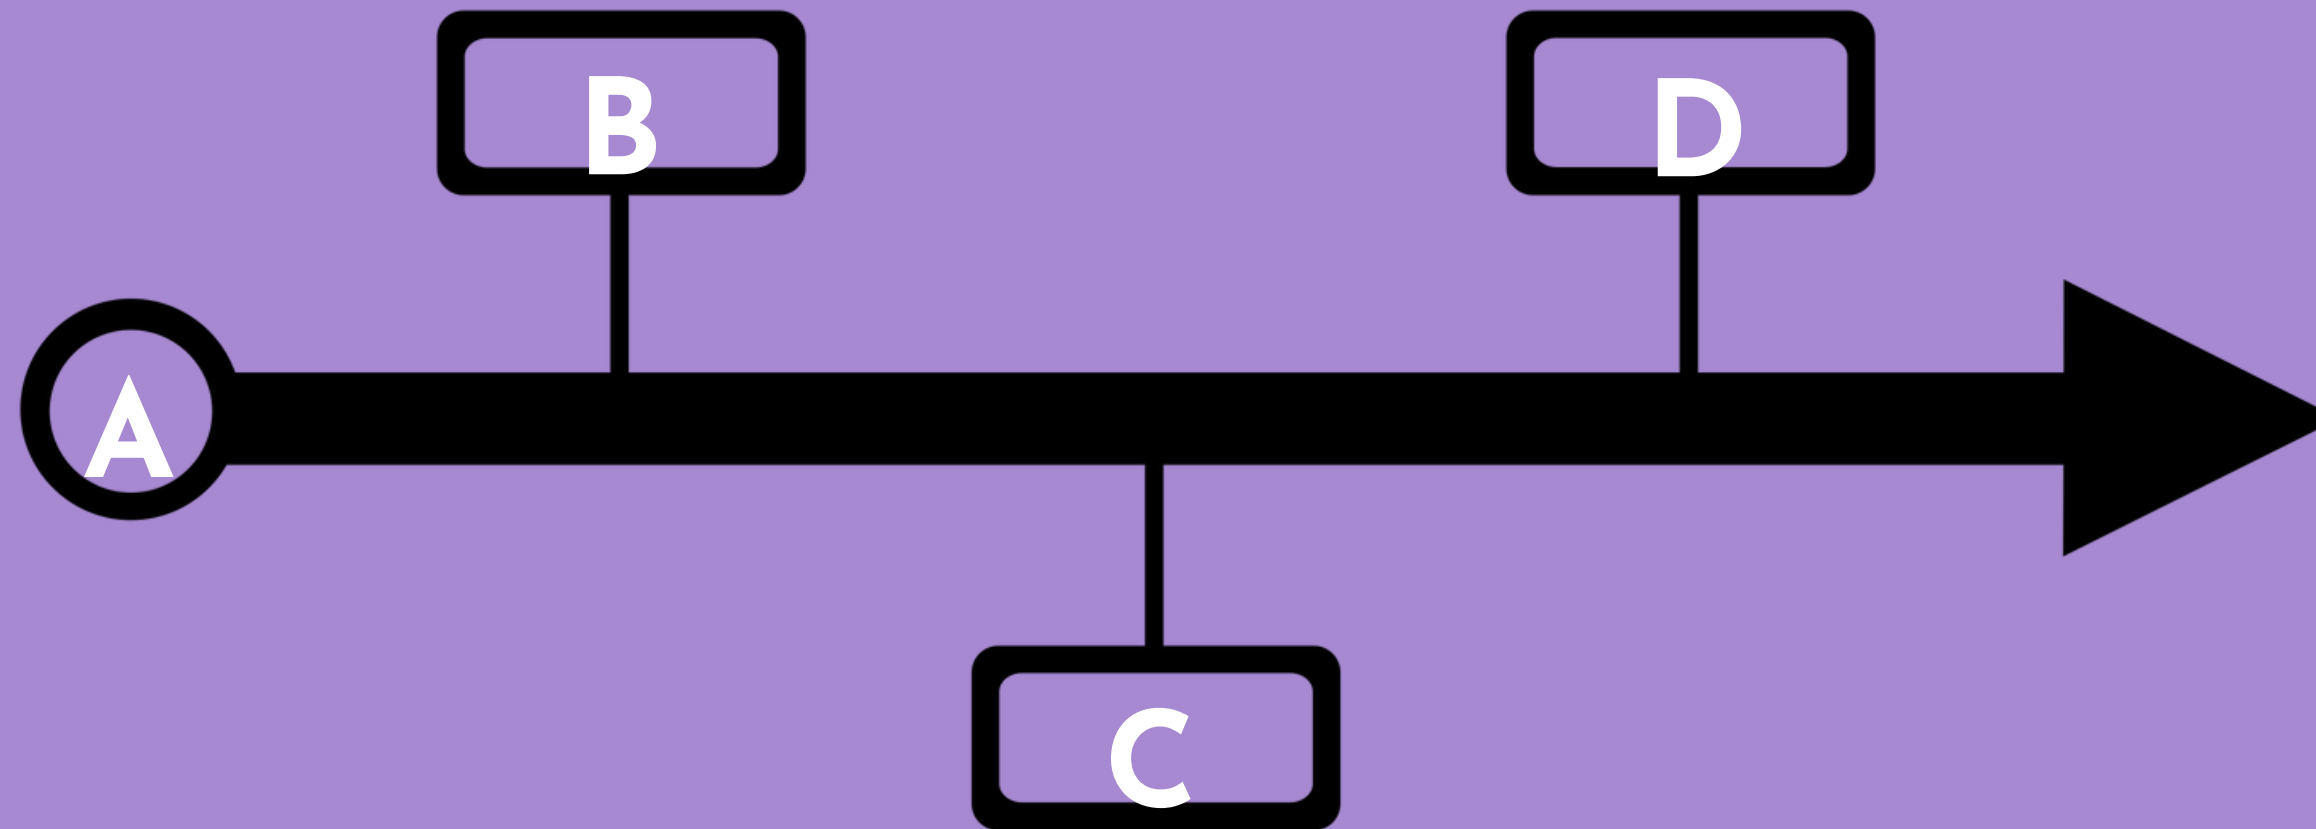

Complex Reimbursement

Process: Filing for reimbursements on Amazon can be confusing and time-consuming.

03.

Missed Opportunities: Sellers often miss out on reimbursements due to lack of awareness and monitoring.

FBA ITEM LIFECYCLE

Point A: Your inventory becomes active at FC

Point B: Event occurs (damaged return, lost/damaged in FC, overcharged fees, missing returns).

Point C: Amazon auto-reimburses.

Point D: Claim window closes

We assign an account manager to your account to open cases and followup manually between point C and D.

Dedicated

Reimbursement Manager

Each account is assigned a Reimbursement Manager.

Automated and

Manual Sync

Our software syncs with your account.

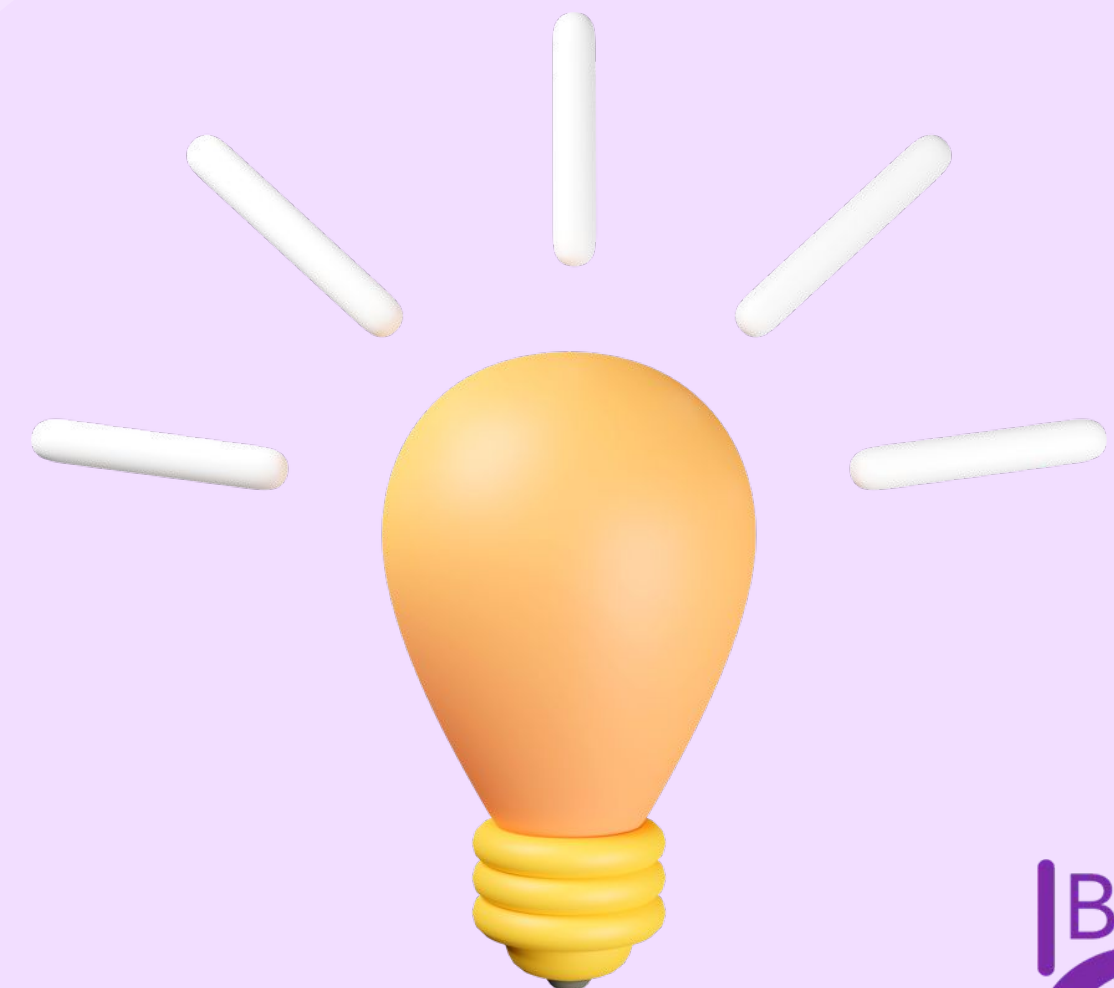

The Reimbursement Manager immediately initiates manual case filing.

TOS Compliance and

Account Security

Bookz Pro Reimbursement is 100% TOS compliant. Guarantees the safety and integrity of your Amazon seller account.
